Barrington Diesel Club

The specs Cat give for oil pressure are only at idle and 1800. I wish they gave one for 1400 but they do not. I would run the engine at 1800 and see if it falls between 2.75 and 4.13. There is a relief valve located in the oil pump as well as the oil filter base. The one in the base has been known to cause low oil pressure problems.
