You can literally eat, drink and sleep with eBooks if you visit the Project Gutenberg website. This site features a massive library hosting over 50,000 free eBooks in ePu, HTML, Kindle and other simple text formats. What's interesting is that this site is built to facilitate creation and sharing of e-books online for free, so there is no registration required and no fees.

## **Chemical Engineering Plant Cost Index**

Chemical plant cost indexes are dimensionless numbers employed to updating capital cost required to erect a chemical plant from a past date to a later time, following changes in the value of money due to inflation and deflation. Since, at any given time, the number of chemical plants is insufficient to use in a preliminary or predesign estimate, cost indexes are handy for a series of management purposes, like

long-range planning, budgeting and escalating or de-escalating contract costs.

## **Chemical plant cost indexes - Wikipedia**

For more than 46 years, chemical process industries (CPI) professionals — engineers, managers, and technicians — have used Chemical Engineering's Plant Cost Index (CEPCI) to adjust process plant construction costs from one period to another. This index — rather, indexes, as it consists of a composite index and eleven sub-indexes — has received such wide acceptance that it has even been written into construction-contract, cost-escalation clauses.
