The Ethics Of History
ETHICS, HISTORY OF. The term ethics is used in three different but related ways, signifying (1) a general pattern or "way of life," (2) a set of rules of conduct or "moral code," and (3) inquiry about ways of life and rules of conduct. In the first sense we speak of Buddhist or Christian ethics; in the second, we speak of professional ethics and of unethical behavior.

The history of Western ethics Ancient civilizations to the end of the 19th century The ancient Middle East and Asia The first ethical precepts must have been passed down by word of mouth from parents and elders, but as societies learned to use the written word, they began to set down their ethical beliefs.

Ethics - The history of Western ethics | Britannica
Although ethics has always been viewed as a branch of philosophy, its all-embracing practical nature links it with many other areas of study, including anthropology, biology, economics, history, politics, sociology, and theology. Yet, ethics remains distinct from such disciplines because it is not a matter of factual knowledge in the way that the sciences and other branches of inquiry are.
